PROFILE

Software Developer with a background in utilizing JavaScript, React, React Native, HTML, and CSS in professional settings. Committed to leveraging extensive practical experience to drive development projects forward. Passionate about harnessing existing skills and embracing new challenges to contribute to innovative solutions and team success.

EXPERIENCE

Mach One Digital, Remote — *Software Developer I*

JAN 2022 - PRESENT

- Brewery Marketing Startup (*May 2023 - Present*)
  - Developed and deployed cross-platform React Native app for Android and iOS, using GraphQL to retrieve back-end data for use on the front-end.
  - Worked in a remote Agile (SCRUM) environment participating in daily standups, using Jira to document current and future work.
  - Engineered a responsive website with NextJS and React TypeScript tailored for optimal performance across mobile devices and desktops.
- Commercial Real Estate Company (*April 2022 - May 2023*)
  - Developed React Native app for both Android and iOS, focusing on optimizing performance and enhancing user experience
  - Integrated into a large, established codebase as a remote contributor, collaborating with a team to implement significant enhancements
  - Implemented Azure DevOps for version control, enabling efficient code integration and collaboration among developers.
- Online Marketplace (*January 2022 - April 2022*)
  - Translated Figma designs into responsive front-end code, ensuring accurate implementation and a seamless user interface feel.
  - Built a responsive single-page application using React and TypeScript, optimizing for mobile and desktop use.
  - Utilized GitHub for version control, merging code and making updates in collaboration with developers
